This is no lottery scheme but simply a nice discount for cash and an
indincement to boy from us. Besides this liberal offer we claim that
our prices in all lines of Boots & Shoes, Groories, Crockery and
Glassware are as low and in many special lines of Boots much lower
than can be purchased elsewhere. Our motto is to give our customeas the very best value we can ever time. We find small profits and
quick returns pay us best. You will save money by examining our
stock before buying as we have a very large assortment for spring at
actomishing low prices. Our goods are all marked in plain figures,

We'll take your bet Mr. Chronicle, that at the time your item appeared Mr. Ryan had no idea of resigning and did not intend to do so when the REP. interviewed him a week after your item appeared. The Chronicle is no doubt honest enough in making the statement it did, but its informant must have drawn largely upon his imagination.

American Tariff Changes,

The Reciprocity party across the lines have proposed some very comprehensive changes in the tariff, placing a heavy duty on farm products which were formerly on the free list, and increasing the tolls on those now dutiable. The aim is to keep all Canadian farm and garden products from the American market. Horned cattle, which now pay twenty per cent, ad ratarem, will be charged at the rate of ten dollars a head; hogs, now twenty per cent, by the new law a dollar and a half a head; horses twenty per cent, by the new bill thirty dollars a head; sheep, now twenty per cent, by the new bill a dollar persons who undertake such a task and a half a head; bacon is increased should be most liberally remunerated.

pound; barley from ten per cent to thirty cents a busile; beans and peas from ten per cent to forty cents a bush.; potatoes from fifteen cents to twenty or twenty-five cents a bushel; beef, mutton and pork from a cent a pound to two cents a pound; butter from four cents to six cents a pound; eggs are taken from the free list and taxed five cents a dozen; cheese increased from four cents to six cents a pound, oats ten cents a bushel. Undoubtedly these changes if put into force will have the effect of shutting Canadian farmers out of the U. S. market. The result will be found to be that the trade will drift into new channels, the Canadian exporter will rise to the emergency and this action of the Yankees will have a beneficial effect on the Canadian farmer.

Mount Forest is all Right.

Evangelists McIntyre and McCrae spent Sunday in Arthur. They have concluded their labors amongst the Mt. Forest sinners, and go to their respective homes for a brief season of rest. A short spiritual struggle with even one average Mt. Forester would make any body tired, so we do not wonder that the evangelists require rest after tackling all of that obdurate community. The from two cents a pound to five cents a both terrestrially and celestialy. - Arthur

Enterprise. Without stopping to ask the Enterprise man why he spells terrestrially with two is and celestially with only onc. we hasten to get back at Mt. Forest's caluminator by saying that he knows not whereof he is talking. The evangelists came to Mt. Forest from Arthur tired out with having harvested a heavy crop of sinners there, but in Mt. Forest sin ners are very, very scarce and the search for some material to work upon; following closely their battle with the devil at close quarters in Arthur is, we feel sure, the cause of the fatigue discerned by the Enterprise.

It is understood that the present session of the Outario Legislature will terminate about Thursday of this week to allow the members to get home by Easter. Nothing certain is known as to the probable date of the election, although the middle of June has been surmised as a convenient time.

The promoters of the Arthur, Guelph and Ontario Railway had an andience with the minister of public works at Toronto on Wednesday. The deputation consisted of: John Anderson, registrar, Arthur; John McNab reeve of Luther; Dr. Allan, reeve of Arthur village; Joseph Halley, merchant, Anthony Buschlin, miller, A. Ballantyne merchant, all of Arthur; and Alex. Frazer, Parkdale, H. W. Peterson, and E. O'Connor, barristers, of Guelph, as solicitors for the incorporators. Some difficulty was experienced in getting the route defined for entrance into Hamilton. Upon the suggestion of Hon. J. M. Gibson the bill was amended by leaving it open to define approach to Hamilton upon a survey being made to the line. Hon. Mr. Frazer assented to this amendment, and the deputation being satisfied took their leave, with the understanding that the bill as amended would meet the approval of the railway committee and of Parliament.
